

Activity 21 Prompt Sheet

Activity 21 | Topic 03 | C013 | Version v1.0

Core prompt

For each priority risk [paste], recommend one primary response strategy from avoid, transfer, mitigate, accept, escalate, exploit, share or enhance. Give the action, owner, trigger, fallback and response cost.

Prepare the inputs

- Open mock-data.xlsx and review every field before copying selected rows.
- Replace bracketed placeholders with your agreed project context.
- Remove names, credentials, personal data and confidential business information.

Prompt iteration

1. Run the core prompt and retain the first response.
2. Ask the model to list assumptions, missing information and uncertain calculations.
3. Correct the inputs and request a revised output in the required artifact format.
4. Record what changed and why the final human-corrected result is stronger.

Verification checklist

- Recalculate every number independently.
- Open and verify every cited source.
- Reject invented facts, changed identifiers and unsupported conclusions.
- Check the final artifact against the activity success criterion.
- Keep final decisions and approvals with the human project owner.
